

# Financial Statements

All services we provide to clients are free of cost to them. MAI Family Services is primarily a volunteer-run organization; services provided by volunteers are performed at no financial costs to MAI Family Services. Therefore, they are not accounted for in the resource allocation. Seventy percent of every dollar donated to MAI Family Services is spent towards services for our clients. Twenty percent is spent on awareness activities, training and community service programs. Ten percent is spent on administrative costs.

MAI Family Services' current financial statement can be provided upon request by emailing us at [info@maifs.org](mailto:info@maifs.org).
